 - Single Tooth
 - Multiple Teeth
- Guided Surgery Practical
 - Use of Osstem OneGuide and OneCAS

EXPECTED OUTCOME

To be able to confidently use Implastation and merge data to create a tooth supported guide for single and multiple implant placements using the Osstem OneGuide and OneCAS kit.

DR. SHUSHIL DATTANI MSc (Implant Dentistry), BDS, DiplImpDent RCS, Adv Cert Bone Grafting RCS, MFGDP RCS. GDC: 78111

Shushil qualified from the Royal London in 2000. After which he completed a two year programme and gained membership to the Faculty of General Dental Practice at the Royal College of Surgeons. He then continued his education in 2005 for a further two years to be accredited with a Diploma in Implant Dentistry at the prestigious Royal College of Surgeons of England. This qualification has been regarded as the gold standard for implant dentistry. He has completed his MSc in 2012 at the University of Leeds, with his thesis paper on the Dental Implant treatment options in the upper jaw when there is insufficient bone available.

Shushil has also served on the board of the Association of Dental Implantologists (ADI) and was bestowed the honour of rebranding the ADI in 2021, with the rebranding launching in 2023. Shushil is passionate about teaching dental implants and providing help to fellow clinicians with his wealth of experience.

He works from his practices in Kent Maidstone and Chatham and only places implants with the use of guided surgery. He designs and prints all his own stents.

DR. VEEREN GUPTA BDS MJDF RCS (Eng) DiplImpDent RCS (Eng) MSc ImpDent UJRC. GDC:193197

Veeran graduated from KCH London in 2010 and completed the Membership of Joint Dental Faculties with the Royal College of Surgeons in 2012. He then went on to complete several hospital posts in Restorative and Oral Surgery departments. While an associate he completed all the Aspire Academy courses to hone his general dentistry skills. He is Clinical Director of Bromley Park Dental and Implant Centre. His practice is limited to implant dentistry.

He completed the Royal College of Surgeons Diploma in Implant Dentistry in 2022 and undertook a Master's level degree at the University of Madrid in 2023. His thesis was based on treatment modalities available when the residual bone height available under the maxillary sinus prevents conventional implant placement.

Course fees: £550 (including course tuition & Lunch)
